

About Us

Unrealasia.com was created by 2 ex-pats. We are Hainan residents that share a passion for China, cycling and travel. While cycling around the island we decided we should share the amazing sights we encountered, the beautiful, the strange and the crazy. So we created the first cycle tour provider and cycling club on Hainan Island.

Our goal is to provide the best bike tours on Hainan Island. The past knowledge we have gained working in the tourism industry, and our intimate knowledge of Hainan Island has been applied to our tours. Our Hainan bike tours focus on providing a real experience of Hainan Island. Our tours showcase Hainan's natural beauty, people, and culture, all of which has been made accessible by bike. If you want more excitement we can include adventure activities like: snorkeling, rafting, surfing, hiking, and abseiling.

We strive to be flexible and to provide genuine satisfaction to all cyclists who come to tour Hainan. Our small organization can provide quality tours at reasonable prices, which larger tour providers with big overheads can not.

We are members of the Asia Cycling Alliance. Alliance members share some tours and marketing. You can visit other Alliance members at www.grasshopperadventures.com

Together we have years of travel and tour experience, let it work for you. Explore the website, get in contact, and we will begin to arrange your unique holiday experience.
